

This is CS50.

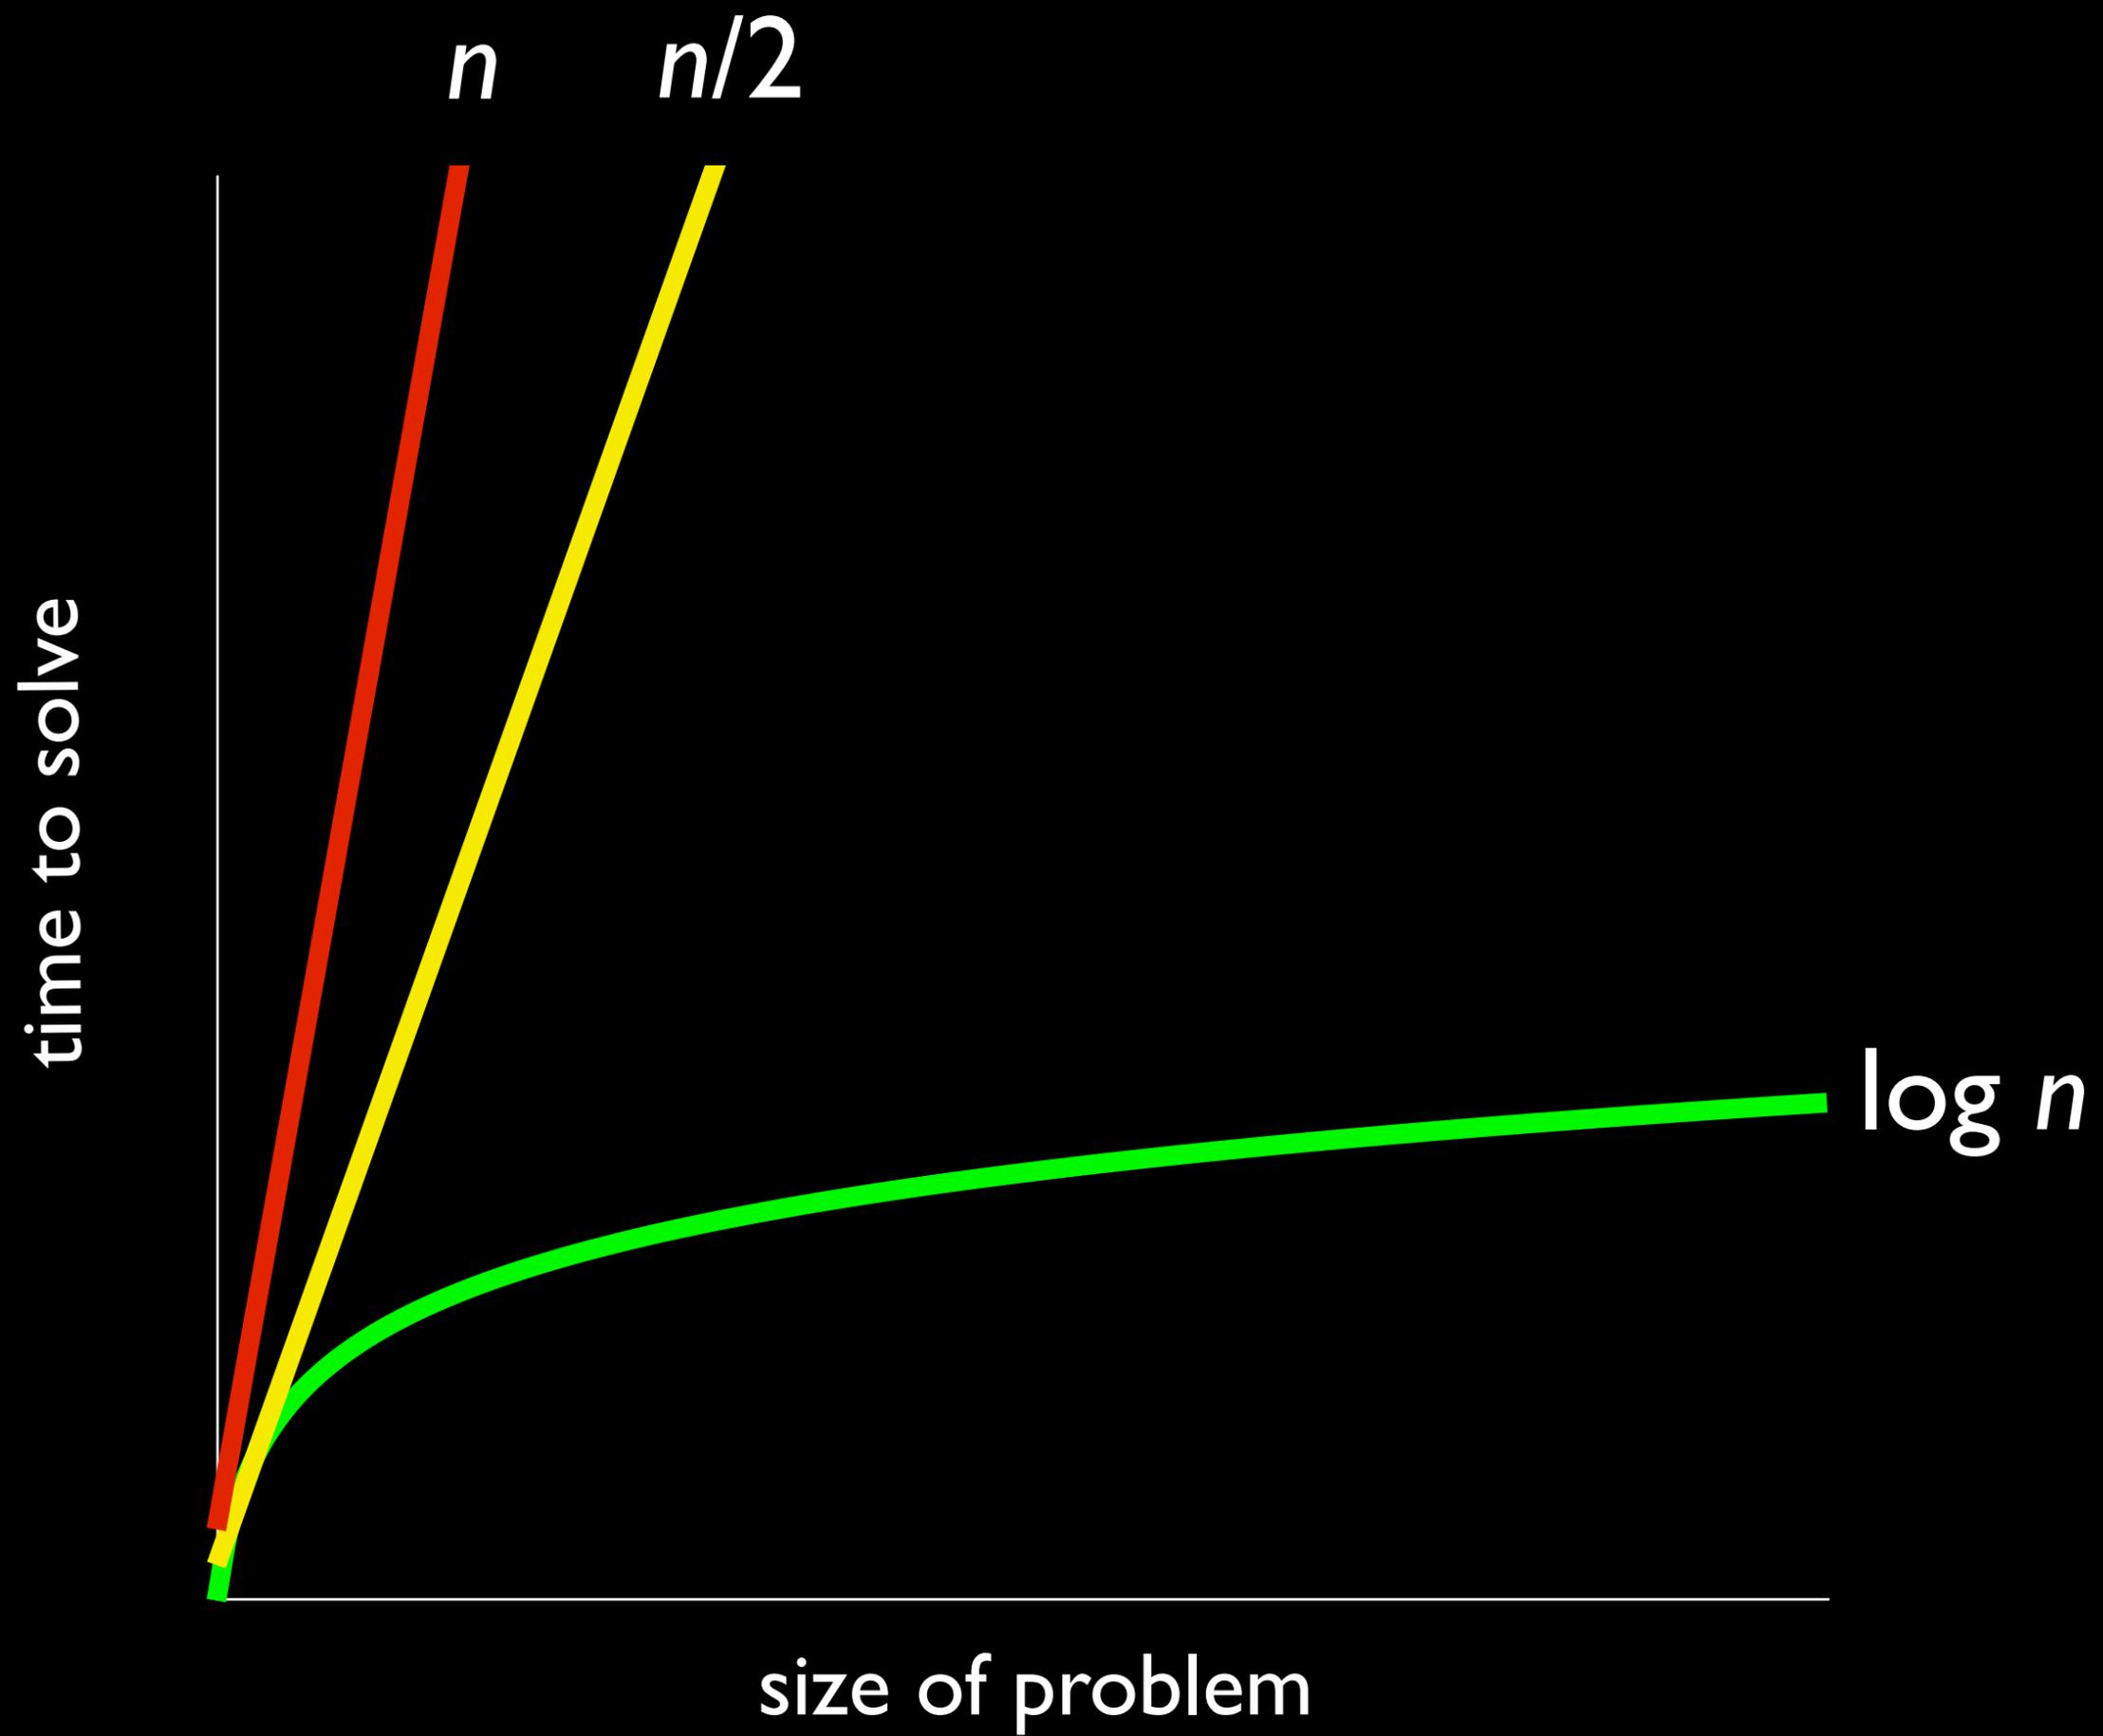

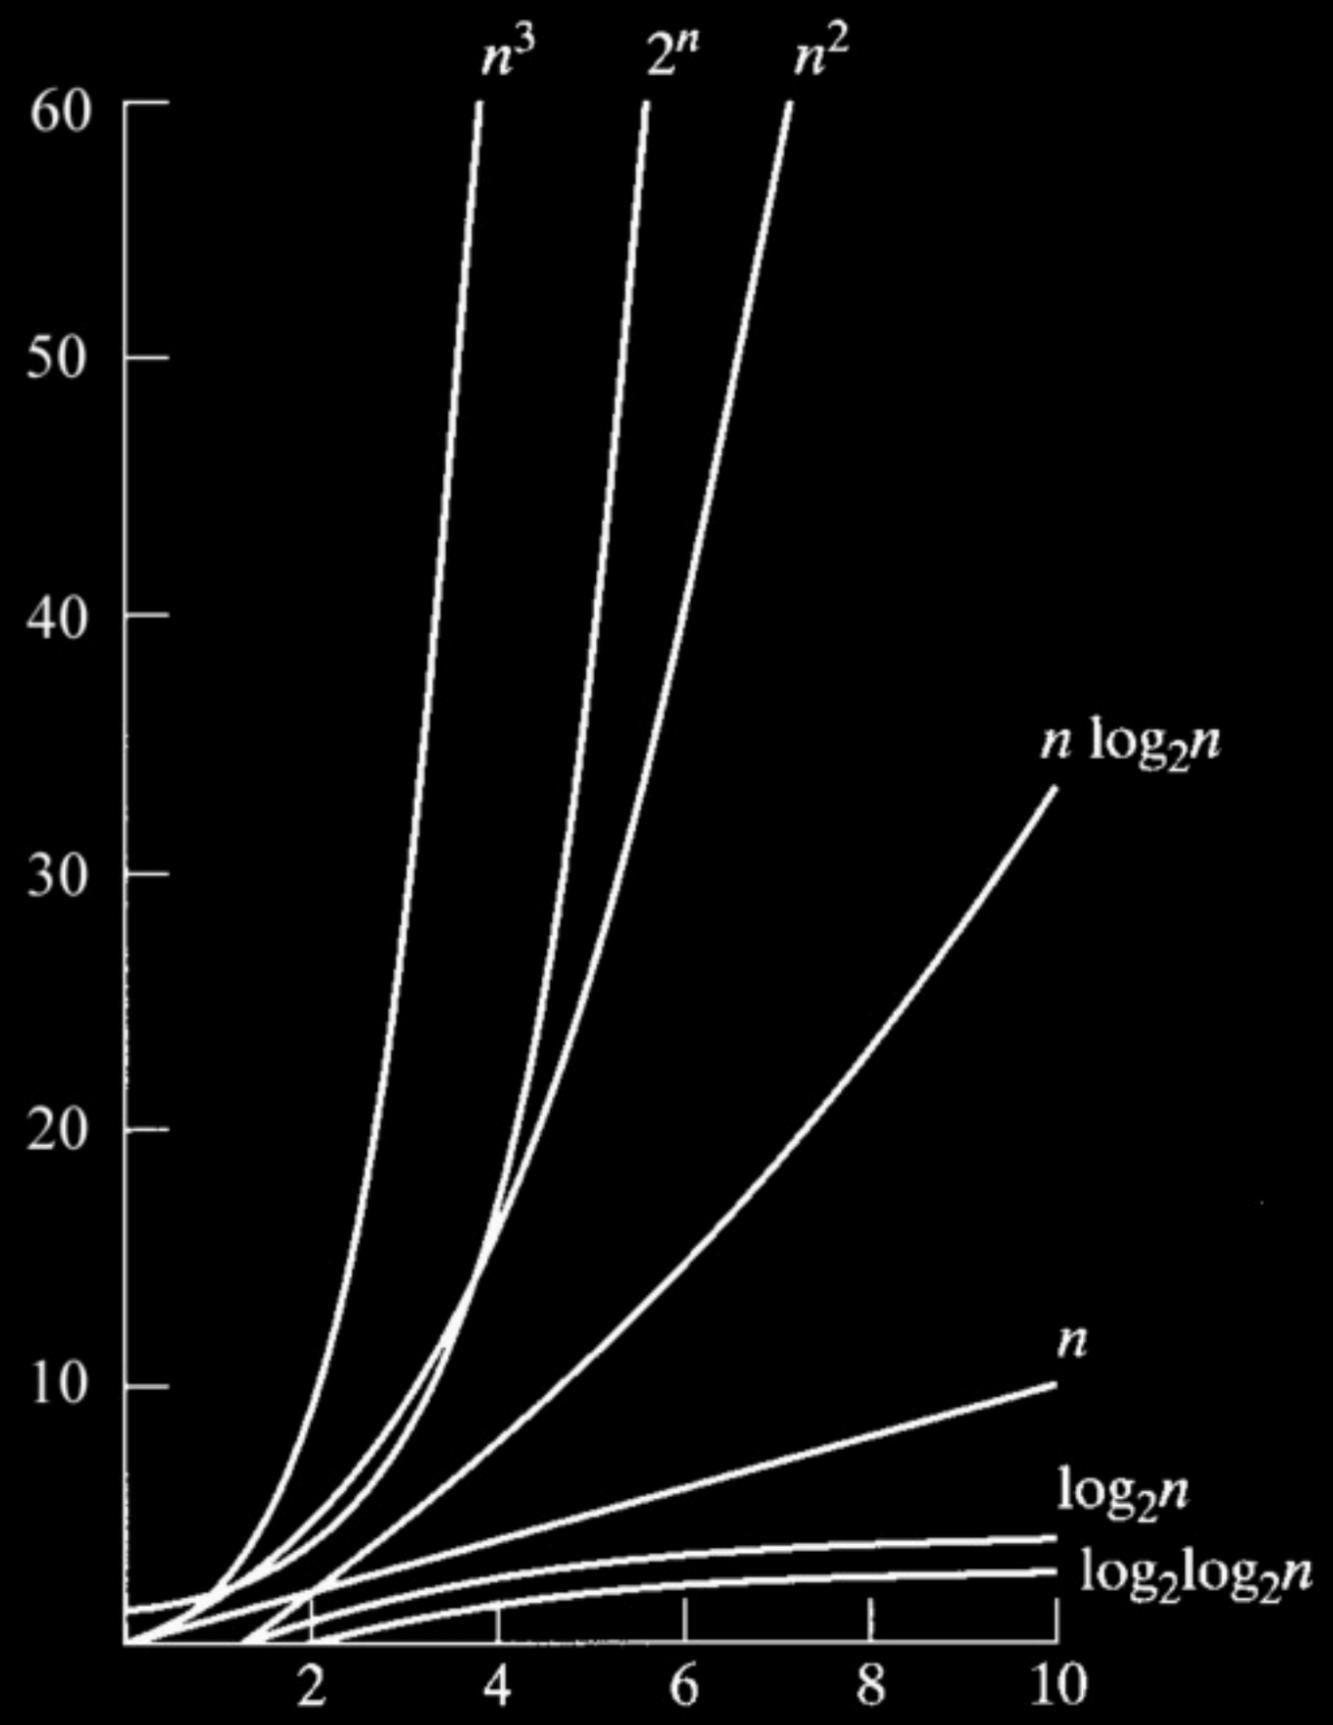

an algorithm

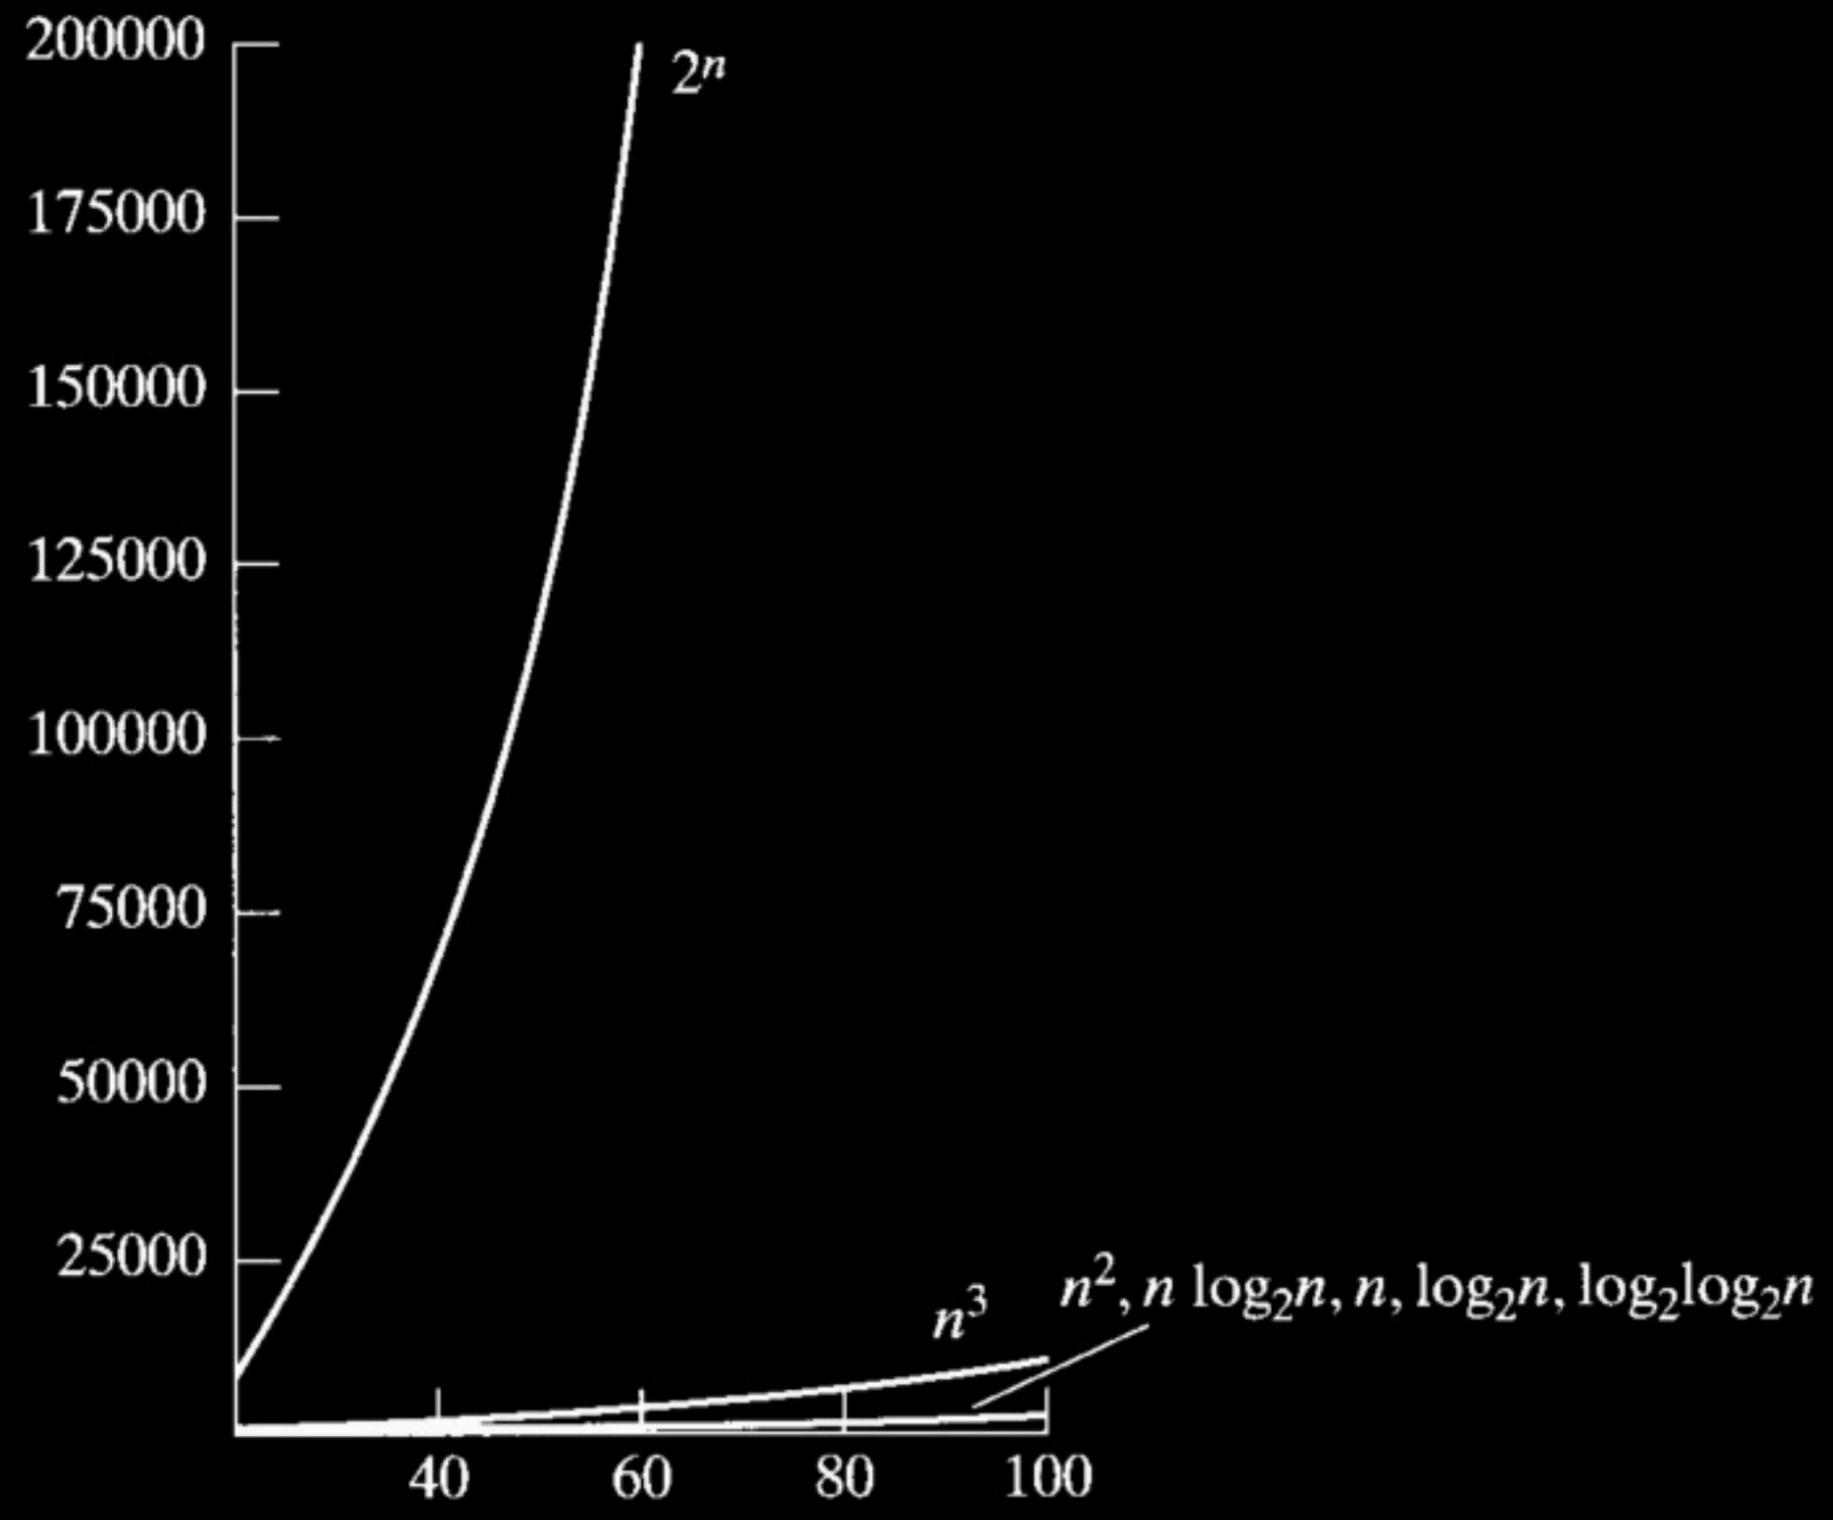

1. stand up and think of the number 1
2. pair off with someone standing, add your numbers together, and adopt the sum as your new number
3. one of you should sit down; the other should go back to step 2

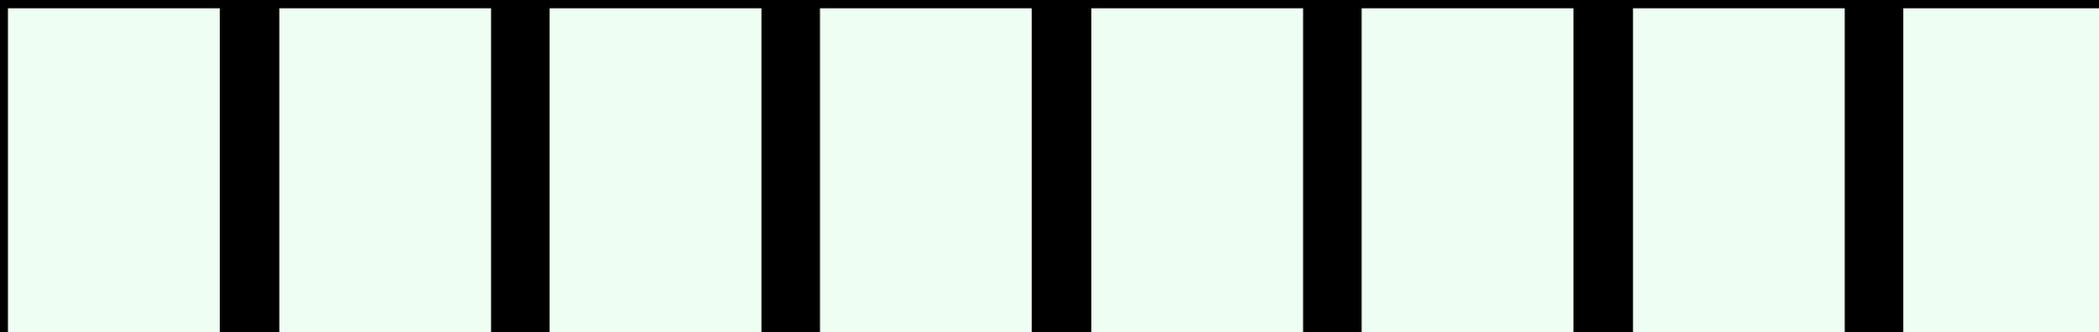

another algorithm

1. stand up if in orchestra section
2. pair off with someone standing; stay standing if you're taller, sit down if you're shorter; break tie randomly
3. if still standing, go to step 2

bubble sort

selection sort

insertion sort

0

merge sort

On input of n elements:

 If $n < 2$

 Return.

 Else:

 Sort left half of elements.

 Sort right half of elements.

 Merge sorted halves.

$$T(n) = 0, \text{ if } n < 2$$

$$T(n) = T(n/2) + T(n/2) + n, \text{ if } n > 1$$

$$T(16) = 2 \cdot T(8) + 16$$

$$T(16) = 2 \cdot T(8) + 16$$
