rate me!

## cs teaser

Look in `README.txt` for a number of different code snippets to put in `sumfunction.c`. All but one snippet provide the same functionality to `mysum.c`.

## cs teaser

After running `make`, run the  
following:

```
objdump -S sumfunction.o
```

This shell command intersperses  
source lines with the  
corresponding assembly code.

thank you
