CS50
FAIR

COME SEE 600+ STUDENTS'
**DAZZLING FINAL PROJECTS**

NORTHWEST SCIENCE

The CS50 Fair is the Harvard School of Engineering and Applied Sciences' flagship recruiting event. The climax of Computer Science 50, Harvard College's gateway course for majors and non-majors alike, the CS50 Fair offers industry a unique opportunity to mingle and meet with students and faculty, all while enjoying an exhibition of 600+ students' term projects.

We invite you to join us in supporting Fall 2013's CS50 Fair.

This is the CS50 Fair. This is CS50.

Comfort Level

Why CS50?

Prior CS Courses

59% "less comfortable"
30% "somewhere in between"
11% "more comfortable"

34% elective
36% concentration
8% core or gen ed
22% unsure

73% zero
20% one
7% two or more

{ Show your company's support for Harvard's CS community.

Showcase your products and services to over 2,000 students and faculty.

Recruit students for internships and full-time positions. }

Supporting the Hackathon

The Hackathon is an all-night coding marathon a few days prior to the Fair during which as many as 300 students make a final push toward the finish line with their projects. Hackathon sponsorship provides students with late-night meals and snacks to power them through the night. If you are interested in sponsoring the Hackathon, please contact Lauren Carvalho (below).

Donating Raffle Prizes

To encourage attendees to interact with students at the Fair, we ask students to give a sticker to each attendee who comes to see their projects. Each sticker corresponds to an attendee's chance to win a prize. We need your help adding exciting prizes to the raffle!

Wish List

32GB iPod Touch
32GB iPad
Kindle Fire HD 8.9 4G

Xbox 360
Wii U
Nintendo 3DS

Microsoft Surface
Samsung Galaxy Tab 10
32GB iPad mini
