#### functions

main

#### conditions

```
(condition)
    // do this
else if (condition)
    // do that
else
    // do this other thing
```

## Boolean expressions

```
if (condition || condition)
{
    // do this
}
```

## Boolean expressions

```
if (condition && condition)
{
    // do this
}
```

#### switches

```
switch (expression)
    case i:
        // do this
        break;
    case j:
        // do that
        break;
    default:
        // do this other thing
        break;
```

```
for (initializations; condition; updates)
{
    // do this again and again
}
```

```
while (condition)
{
    // do this again and again
}
```

```
do
{
    // do this again and again
}
while (condition);
```

```
for (var key in object)
{
    // do this with object[key]
}
```

#### arrays

var numbers = [4, 8, 15, 16, 23, 42];

#### variables

```
var s = "hello, world";
```

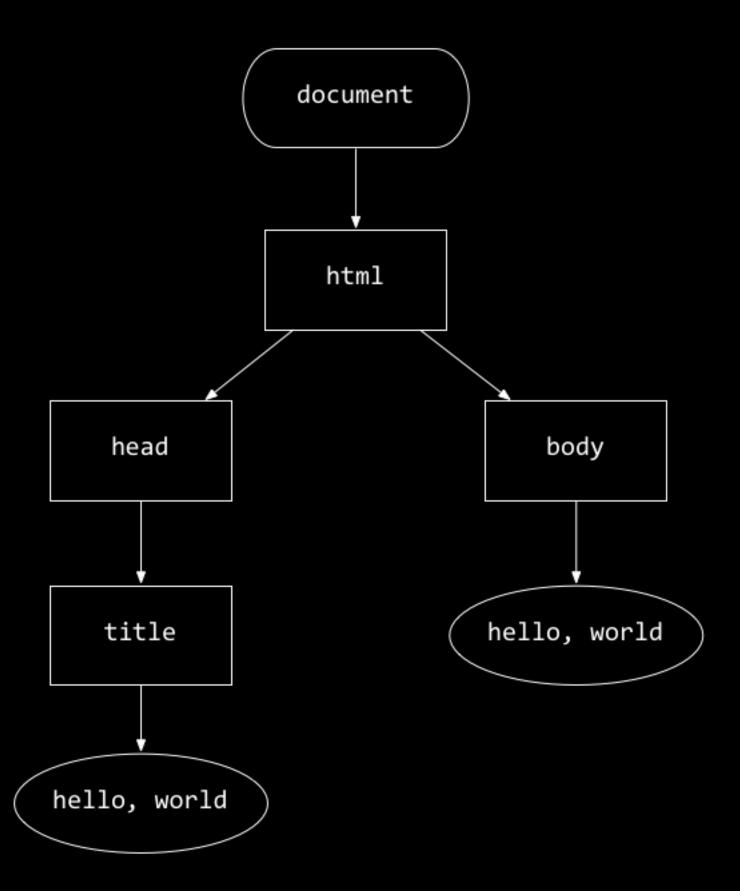

#### objects

```
var quote = {symbol: "FB", price: 101.53};
```

#### JSON

```
"database": {
    "host": "localhost",
    "name": "pset7",
    "username": "TODO",
    "password": "TODO"
}
```

```
<!DOCTYPE html>
<html>
    <head>
        <title>hello, world</title>
    </head>
    <body>
        hello, world
    </body>
</html>
```
