

hello

hello.c

```
#include <stdio.h>
```

```
int main(void)
```

```
{
```

```
    printf("hello, world\n");
```

```
}
```

hello.py

```
print("hello, world")
```

C

- `hello.c`
- `make hello`
- `./hello`

Python

- `hello.py`
- `python hello.py`

this was hello
