GitHub Pages
Style

body
{
    text-align: center;
}

Exercise

• Pick a website (in small groups) and try to replicate it using HTML and CSS.
Bootstrap
Alerts

Provide contextual feedback messages for typical user actions with the handful of available and flexible alert messages.

Examples

Alerts are available for any length of text, as well as an optional dismiss button. For proper styling, use one of the eight required contextual classes (e.g., `.alert-success`). For inline dismissal, use the alerts jQuery plugin.

A simple primary alert—check it out!

A simple secondary alert—check it out!

A simple success alert—check it out!

A simple danger alert—check it out!

A simple warning alert—check it out!

A simple info alert—check it out!
JavaScript
alert('Hello, world!');
alert('Hello, world!');
Exercise

- Add to the scoreboard program:
  - A button (for each team) to subtract points from that team
  - A button to reset points for the entire game
  - A message that appears on the page once a team reaches 10 points to indicate that they won
