Dear Staff,

We are saddened to report the suicide death of a junior from our school, [redacted] At this time, we have no information about funeral arrangements. We ask that you keep [redacted] and his family in your thoughts throughout the week. We will have a district crisis team available for students tomorrow. As well, we do have counseling services available for any staff member that feels they need extra support.

Any student who feels that they need support and someone to talk with should tell their teacher immediately so they can arrange to go to the Guidance Office. We encourage all students to stay in school tomorrow so that our staff can support them. Please come to a staff meeting tomorrow 7:15 am to receive further support and information.
