```python
from string import digits

for i in digits:
    for j in digits:
        for k in digits:
            for l in digits:
                print(i, j, k, l)
```

```python
from string import ascii_letters

for i in ascii_letters:
    for j in ascii_letters:
        for k in ascii_letters:
            for l in ascii_letters:
                print(i, j, k, l)
```

```python
from string import ascii_letters, digits, punctuation

for i in ascii_letters + digits + punctuation:
    for j in ascii_letters + digits + punctuation:
        for k in ascii_letters + digits + punctuation:
            for l in ascii_letters + digits + punctuation:
                print(i, j, k, l)
```
